

ACTIVATOR™ Course for Rehab Professionals

Become a certified trainer for one the fastest growing fitness programs!

Learn about the dynamic ACTIVATOR Program prescribed as best practice for rehabilitation centres, clinics and community programs across Canada, the UK & Australia to improve outcomes in gait, balance and core strength while inspiring active living.

ACTIVATOR Poles are an evidence-based, patented tool that is revolutionizing rehabilitation. Prescribed extensively in all continuums of health care for therapy and to reduce the use of passive mobility devices such as canes, crutches and walkers.

Motivate your clients while significantly improving treatment outcomes for balance, core strength, posture, endurance; reducing impact on lower extremities and joints; and promoting functional gait patterns.
