

Passionate about exercise therapy? So are we!

About You:

As an Kinesiologist engaged in your profession, you enjoy working with colleagues and clients to deliver exceptional exercise therapy services. You are an engaging and effective communicator. You enjoy collaborating with other healthcare professionals to develop thorough treatment programs and are confident working one-on-one with clients. You embrace the challenge of providing excellent access and effective case management so that our clients can return to their pre-injury status as quickly as possible.

In addition to having your CSEP-CEP designation, you share the same values and vision as us: A drive to learn and improve. A passion to provide clients with great access to exceptional care. And because we like to have fun at work, you have a friendly, energetic, and team-oriented nature. 18 months' experience is preferred, but not required.

About the Role:

Working in a multi-disciplinary setting, you collaborate with physical therapists and work as part of a multidisciplinary rehabilitation team providing exercise therapy to a variety of clients, ranging from acute injuries to more long-standing, complex conditions. Based out of one of our Saskatoon clinics, from time to time you may fill in on a temporary basis at our other Saskatoon sites as needed.

About Us:

CBI Health Group is a values-based, results-oriented and collaborative company that remains focused on providing improved access and better health outcomes for patients and communities across Canada.

We recognize the importance of ongoing professional development and innovation, and as such, in addition to our extensive internal training and mentoring opportunities, staff are supported in their external educational endeavours.

Contact Dwight Templeton at 306.978.1025 or dtempleton@cbi.ca to discuss becoming part of our Saskatoon team.
